NEGATIVE TEST
Student/Staff Tests Negative for COVID-19
After Scenario 2 (Close Contact)

NEW - Fully vaccinated individuals may not need to quarantine if they meet certain conditions. See sccstayhome.org for more info.

Student or Staff tests negative after close contact

Close contact in household

Site or Department Administrator
- Notifies COVID-19 Designee.
- Ensures student/staff does not return to school until 10 days (or 7 days, if qualified for shortened quarantine) after COVID-19 positive household member completes their isolation (may be 20 days or longer).

Close contact NOT in household

Site or Department Administrator
- Notifies COVID-19 Designee.
- Ensures student/staff does not return until 10 days (or 7 days, if qualified for shortened quarantine) since last exposure.

COVID-19 Designee¹
- Works with Site/Department Administrator to provide quarantine instructions.
- If staff member, notifies HR administrator.

If individual is a staff member:

HR Administrator¹
- HR Administrator contacts staff member to discuss quarantine conditions & leave options.
- HR Administrator maintains communication with the Site Administrator and Superintendent Designee regarding test results and when staff member can return to work.

¹Note: In some cases, the COVID-19 Designee and HR Administrator may be the same person.
