Isolation and Quarantine Recommendations While Awaiting and After Receiving COVID-19 Test Results

**SYMPTOMATIC (suspected case)**
- COVID-19 symptoms: YES
  - Close contact: NO
    - **Isolate** immediately while awaiting test results.
- COVID-19 symptoms: YES
  - Close contact: YES
    - Quarantine/isolate immediately while awaiting test results, unless fully vaccinated with no symptoms.
- **COVID test immediately**
  - Negative
    - Return to school/work at least 24 hours after fever resolves and other symptoms improve.
  - Positive
    - Isolate for at least 10 days and at least 24 hours after fever resolves and other symptoms improve.
- COVID test immediately
  - Negative
    - Test ASAP & on/after Day 5 after last exposure. If not tested, must quarantine for a full 10 days. (If symptomatic, 10 days and at least 24 hours after fever resolves and other symptoms improve.) May shorten quarantine to 7 days if test taken on/after Day 5 after last exposure is negative and not experiencing symptoms. Everyone should continue to monitor for symptoms for a full 14 days.
  - Positive
    - Isolate for at least 10 days after onset of symptoms and at least 24 hours after fever resolves and other symptoms improve.
    - Test ASAP and on/after Day 5 after last exposure. Continue at school/work if results are negative and remain asymptomatic.
