1. If person is not a close contact but has COVID-like symptoms that are common to a variety of illnesses, the person should get tested and provide a negative test result to the school. A doctor’s note can only be used in place of a negative test under very specific circumstances. See Education page FAQs for details.

2. A close contact is someone who was within 6 feet of the infected person for at least 15 minutes at any time beginning 2 days before the infected person had symptoms or tested positive. The exposure time can be 15 minutes of continuous contact with the infected person or repeated short-duration interactions with the infected person totaling 15 minutes within a 24-hour period.

3. Anytime a test is positive (regardless of vaccination status), isolate at home for at least 10 days after the first symptoms started (or date positive test collected) and at least 24 hours after resolution of fever and other symptoms improve.

4. If case is a household (HH) member, unvaccinated contact’s quarantine starts immediately & extends for 7 days (if test on/after Day 5 is negative) or 10 days (no test) from end of case’s isolation.
