
All County vaccination clinics comply with Americans with Disabilities Act (ADA) requirements. Additional measures were taken to improve the visiting experience of residents who face challenges, physical or other, accessing mass vaccination clinic sites.

This guide covers some special procedures County mass vaccination sites offer to better serve those with all types of disabilities.
Everyone's situation is unique. Those who can be vaccinated at a mass vaccination site are welcome to do so, with the support they need.

In general, there are different groups for physical ability. Each group needs a different response.

1) Those who can go to a vaccination site and wait in line without assistance.

2) Those who can go to a vaccination site but cannot stand for long or may need seats or wheelchairs.

3) Those who need access to reserved parking and may need help getting to the site. They may need to be routed more quickly and receive additional attention.

4) Those who need access to reserved parking and may need help getting out of their vehicle or need to get the vaccine at their vehicle.

5) Those who cannot tolerate going to a site and need an in-home visit. The County encourages all who can access a site to do so in order to focus available resources on those most in need of help.
There are many mass vaccination sites in the County. Find one near you and make an appointment at sccFreeVax.org

Below are County mass vaccination sites as of February 11, 2022. Please note, hours and days of operation may change. All clinics offer vaccines to individuals ages 5 and older.

**NORTH COUNTY**

Mountain View Community Center
201 South Rengstorff Avenue
Mountain View, CA 94040

**CENTRAL COUNTY/SAN JOSE**

Public Health Pharmacy Travel and Immunization Clinic
976 Lenzen Avenue, Suite 1100
San Jose, CA 95126

Fairgrounds Exposition Hall
2542 Monterey Highway, Gate D
San Jose, CA 95111

**SOUTH COUNTY**

De Paul Health Center
18550 De Paul Drive
Morgan Hill, CA 95037
This site is in a quiet area. There is parking reserved for people with disabilities.

Staff in the parking lot will identify those who need help and quickly bring them into the building so that they do not stand or wait outside. Let staff know if you would like to be vaccinated in your car.
For those who request privacy or have a history of feeling faint around needles, there is a screened area where they can be vaccinated.

Two beds are available, as well as wheelchairs for those who need them.

Before you leave, staff will make a follow-up appointment for you, if needed.
Located in the center of the County Fairgrounds complex, Expo Hall can be reached off Gate D by taking Monterey Highway heading north.

Let staff know if you would like to be vaccinated in your car. A separate parking area is dedicated to individuals with disabilities or special needs. There is also an ADA friendly entrance and separate vaccination line.

Staff helps identify any special needs of each visitor before they go to get their vaccine. A waiting area is available, along with a screened off area for privacy.
This site is located at Valley Health Center Lenzen. Note: Wheelchairs are not available to borrow here.

Visitor parking is located on the southwest side of the building. Closer ADA parking is available in the staff lot on the northeast side.

To enter the building go up the nearby ramp. There is automatic button to open the door. The clinic is down the hall, then to the right.

The main entrance on Lenzen Avenue has an ADA ramp and a button before the doorway to open the automatic doors. After entering, take the corridor on the left. Then take a right at the next hallway.
The clinic is located in suite 1100. Register for your visit at the window and wait to be called.

Staff will guide you into a private room to receive the vaccine. Guests can either use the fixed chair, one of which is adjustable, or their own wheelchair.

After a brief observation period in the waiting room, you can be given a follow up appointment at the window, if applicable.
De Paul Health Center, Morgan Hill

From Cochrane Road, turn right onto DePaul Drive and parking lot staff will guide you to patient parking, or to the front of the building for drop-off. Staff in the booth at the front of the building will guide you inside for registration. Let staff know if you would like to be vaccinated in your car.
There are wheelchairs throughout the building, and staff available to assist as requested.

You will register for your vaccine at one of these “pods,” or hospital units. There is an expedited process for ADA guests.

You will be led into a labeled vaccination room, with a bed available, if needed.
After vaccination, you will be directed to outside tents for observation.

To exit back to your car, you will then go back inside the building.
